## DETAILED ACTION

### ***Double Patenting***

1. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

2. Claims 9,10 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 90 and 120 of copending Application No. 08/720,070. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.

It is understood that these claims have been filed for the purposes of interference and are copied claims, however, claims 90 and 120, which correspond to the instant claims 9 and 10, are still pending in co-pending application 08/720,070, thus necessitating this rejection.

### ***Allowable Subject Matter***

3. Claims 6-8 are allowed.

Art Unit: 3676

Note that claims 9 and 10 are allowable over the prior art of record but stand provisionally rejected under double patenting issue since claims 90 and 120 have not yet been cancelled from the parent application 08/720,070.
